333 S. 13<sup>th</sup> Street - Lincoln, NE

Please mark your calendar to attend the 2012 Nebraska Highway Safety Summit on **Thursday** April 5, 2012. This informational one-day conference will address the five Critical Emphasis Areas identified in the Nebraska Strategic Highway Safety Plan -- occupant restraint, impaired driving, younger drivers, intersection crashes and lane departure crashes. These emphasis areas were originally developed for the 2007-2011 Nebraska Strategic Highway Safety Plan (SHSP) and are continued in the 2012-2016 SHSP that will be introduced at this conference.

The morning session will consist of speakers with national perspectives on highway safety and how they relate to Nebraska. The afternoon session will be facilitated breakout sessions on the five CEAs to discuss current safety efforts, identify additional strategies, as well as identify opportunities to coordinate and expand efforts across the state. Please refer to the attached preliminary agenda for more details.
